

Enrollment

We know that curious minds and an appetite for the unknown are natural opportunities for helping children become healthy young consumers of fresh market produce.

The Power of Produce (POP) Club provides children ages 4-8 with educational activities, demonstrations, and interactions with their local food growers that are designed to enhance interest in, and enjoyment of market fresh fruits and vegetables. Take for instance, the “Two Bite Club”—a challenge to taste new fruits or veggies, or give familiar ones a second chance.

By participating in **POP Club** activities, your child will earn POP tokens, which they may then use in the market to purchase fresh fruits and veggies of their choice.

POP Club participation is free and is a win-win for parents and children alike. As parents you will witness your child’s light bulb moments as they interact with activities, food, and practices that champion a healthy lifestyle. Your child will learn while having fun, with the added bonus of becoming an active market member using POP Club tokens to shop for their edible take-home treasures.

To enroll, please complete the section below and return this form to sharon@thesowinggrowth.org or bring to the Market Information Booth.

Please consider:

1. Food Allergies: Food samples and demonstrations are components of POP Club, so please keep in mind any food allergy concerns.
2. Consent for Photographs: By participating in POP Club, I grant this market, its representatives and employees, the right to take photographs of my child while they are participating in market activities. Photographs may be used with or without my name for any lawful purpose, including for example such purposes as publicity, illustration, advertising, and web content.
3. Parent must be present in the market during the POP session.

Child’s Name _____

Parent’s Name _____
