

Sowing Growth

2021 Fall Bulb Sale

We promise your spring will look much better with blooms of Daffodils/Narcissus, Hyacinths and Alliums. We guarantee our bulbs to be viable, healthy and free from insects and disease. Our bulbs are grown from cultivated stock and inspected by US, CA and Dutch Departments of Agriculture. The products we are selling this year come from the Ruigrok Flower Bulbs in Holland. Ruigrok Flower-bulbs since 1910.

Bulb Sale—Think Spring!

Sowing Growth's Bulb Sale supports the Eastern Ingham Farmers Market equipment and operational expenses. These bulbs were carefully selected by our Advanced Master Gardener because of their popularity, show of color and tolerance for our growing zone.

They are also a wonderful gift!

Bulbs will be available for sale at the Market until the supply runs out. Sale starts September 26th.

Pick-up will be at the Market site located in the McCormick Park parking lot at the corner of Putnam and High streets.
